

Childhood Lead Poisoning Screening Map

Polk County

- Universal Screening Area
- Zip Code Boundary / Major Road
- Water Body

Scale for County Map

0 5 Miles

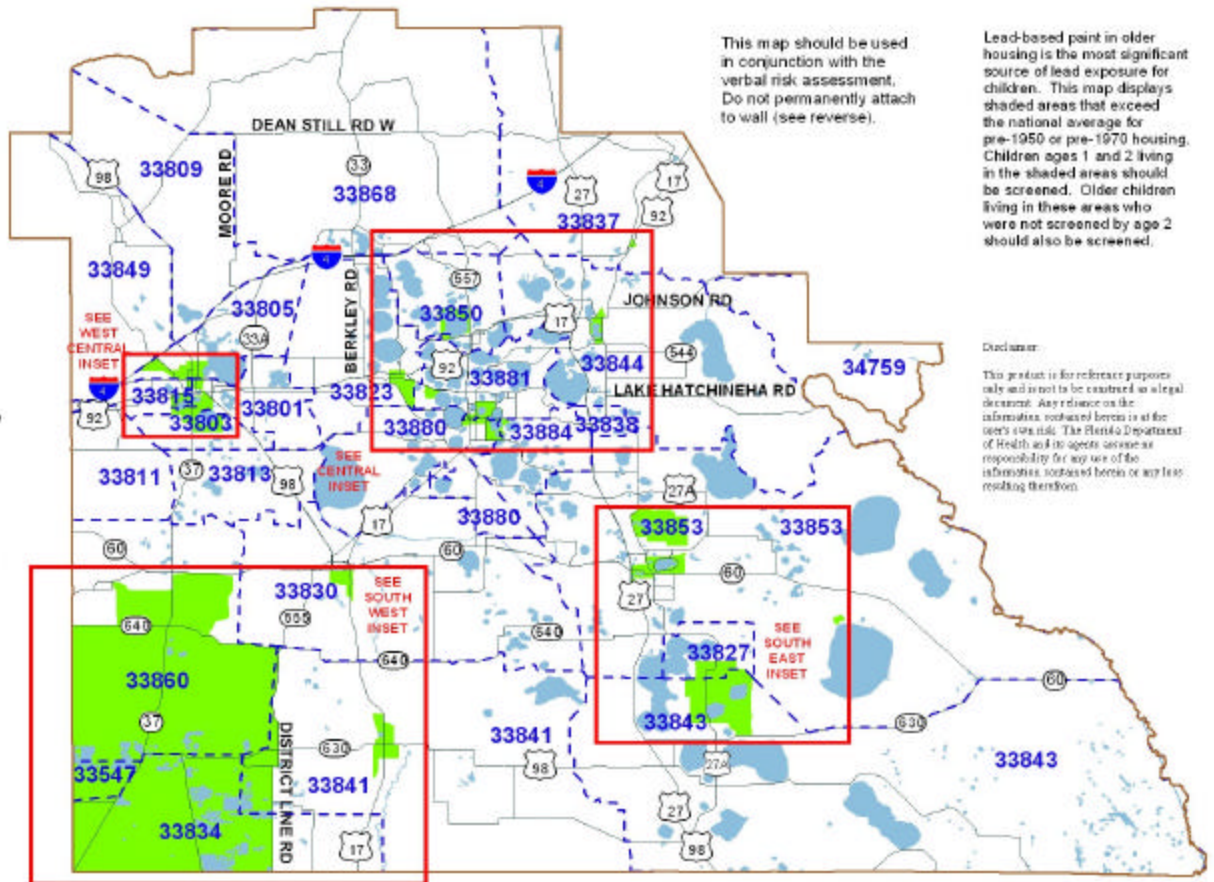

Directions:

1. Ask the parent for the zipcode of the physical address where they live
2. If the zipcode is on the list below, ask the parent to point to where they live on the county map
3. If they live in one of the green shaded areas, screen the child
4. If they do not live in one of the green shaded areas, continue the assessment process using the verbal risk assessment questionnaire

List of Target Zip Codes

33801	33830	33850
33803	33834	33853
33805	33837	33860
33815	33841	33880
33823	33843	33881
33827	33844	33884

This map should be used in conjunction with the verbal risk assessment. Do not permanently attach to wall (see reverse).

Lead-based paint in older housing is the most significant source of lead exposure for children. This map displays shaded areas that exceed the national average for pre-1950 or pre-1970 housing. Children ages 1 and 2 living in the shaded areas should be screened. Older children living in these areas who were not screened by age 2 should also be screened.
