- Community roads and sidewalk improvement.
- Dirty Canal
- Demolish uninhabitable /abandoned homes.
- Improve street lighting.
- Community park or playground.

Concisely summarize this month's activities.:

While waiting for the City of Pahokee to acquire the funds for demolition work to get rid of an abandoned house, the community is working to build a playground.

The land has been cleared off and some of the playground equipment has been ordered. The residents are looking forward to help put this playground together and get the children out of the streets.

We will also be working to repair the community sidewalks to help get the people out of the streets and encourage the residents to walk for exercise.

We will look into getting an action team together to help clean out the drainage ditches that surround the community to prevent any more flooding before the rainy season begins. Since most of this trash is plastic bottles, we should do some recycle education for this area.
