Concisely summarize this month's activities.:

The meeting for July was canceled due to people out of town. The new online sewage project is making good progress and hope to be finished by the end of August.

They are planning to have a community yard sale on August 8th.

A new concern for the community is that they get their fire protection from the City of Pahokee which is about 3 miles away. The city needs to build a new Fire Station and the proposed location puts it further away from Canal Point. This site would take longer response time and could raise insurance rates for some residents. The residents are being urged to voice their opinions about this to city and county officials.
