

Month of Reported Progress:

April

PACE EH Coordinator/Contact Name:

Mike McGinnis

CHD Name:

Palm Beach County / Canal Point

EH Manager/ Administrator:

Selva Selvendran

Has EH Manager/Administrator reviewed and approved this report?:

Yes

Is your PACE EH survey complete?:

Yes

If your PACE EH survey is complete, list your PACE EH community's top identified issues.:

- Drinking Water Quality / Pressure
- Food Supply
- No Sidewalks
- Lack of Services for Seniors and Youth
- Online Sewage

Concisely summarize this month's activities.:

A Community Meeting was held at the Canal Point Community Center to talk about the proposed sewer project. Representatives from the Palm Beach County Water Utilities Department were present to show a power point presentation and answer any questions on this project.

This will be a phase one project for the area south of the canal. There will be 17 hookups with this phase including any commercial property and multi-family units.

This project will use the E/One Sewer System, by using a grinder pump. The one-horsepower motor can pump fluid through more than two miles of small-diameter piping or elevation changes of over 185 feet.

This project is scheduled to start in mid May and be online in August of this year. Hopefully after this is completed there will be some commercial interest for this community.

This community is also dealing with some addressing problems and County Fire Rescue is working on this.
